

Karsten Stoltenberg

Position/Department/Division/Institution/Organization

Equinor New Energy Solutions, Country Manager Japan

Country

Japan

Career history

Karsten Stoltenberg joined the Natural Gas division of Equinor (named Statoil at that time) in 2002. Prior to that, Mr. Stoltenberg worked in investment banking and as head of Continental European trading for a major Scandinavian power producer. Within Equinor's Natural Gas division, he had responsibility to develop Equinor's natural gas asset and project portfolio in Germany and neighbouring countries. From 2005 to 2007, Mr. Stoltenberg was Equinor's country manager in Germany.

Between 2007 and 2010, he worked in Equinor's Retail division, with responsibilities for developing small-scale LNG value chains to industrial end-users and heading the health, safety and environment team.

From 2010 until 2017, Mr. Stoltenberg worked in Equinor's international oil and gas upstream division, as manager of business controlling, asset manager and country manager in Azerbaijan. In 2017, Mr. Stoltenberg joined the New Energy solutions division of Equinor, initially with responsibility for regulatory affairs and analysis. He holds his current position since March 2018. He is an economist by education, with master degrees from the University of Münster (Germany) and the Norwegian School of Management. Mr. Stoltenberg is married and has two children.

Experience:
