

Areti Ntaradimou

Position/Department/Division/Institution/Organization

Editor, Smart Energy International

Country

Netherlands

Career history

Areti is editor of Smart Energy International and Content Director of Enlit Europe. A journalist with over 15 years of experience in science, technology and climate related topics, she has covered the energy sector for the past 5 years. She holds a bachelor in philosophy and a master in applied ethics. Her thesis focuses on the ethical issues introduced to the energy sector by smart meters and the ways they affect communities and the individual.
