

Session Title: Private Sector's Responsibility for Achieving Carbon Neutrality

Name: Sarah Chandler

Position: Senior Director, Environment and Supply Chain Innovation, Apple

Abstract title: Apple 2030

We're over one year into Apple's most ambitious environmental commitment to date — to become carbon neutral for our entire supply chain and the lifetime use of our devices by 2030. It's a big goal, but Apple has a plan. Ms. Chandler will present Apple's strategy to reduce 75% of emissions with, low-carbon design, energy efficiency, and renewable energy, and to address the remaining 25% of emissions with nature-based climate solutions.
