

David Sandalow

ICEF Steering Committee;
Inaugural Fellow, Center on Global Energy Policy, Columbia University;
Co-Director, Energy and Environment Concentration, School of International and Public Affairs,
Columbia University

Nationality

United States of America

Career History

David Sandalow is the Inaugural Fellow at the Center on Global Energy Policy (CGEP) and Co-Director of the Energy and Environment Concentration at the School of International and Public Affairs at Columbia University. He launched and directs CGEP's U.S.-China Program and wrote the Guide to Chinese Climate Policy. Mr. Sandalow chairs the ICEF Innovation Roadmap Project, which has produced roadmaps on low-carbon ammonia, biomass carbon removal and storage (BiCRS), industrial decarbonization and direct air capture, among other topics. He and a team of co-authors are currently at work on an ICEF roadmap on artificial intelligence and climate mitigation. Mr. Sandalow has served in senior positions at the White House, State Department and U.S. Department of Energy.

Areas of expertise

energy and climate policy
